EDUCATION

Bachelor of Engineering

Computer Science

University of Andes

2012 - 2016

Bogotá, Colombia

SKILLS

HTML5/CSS

JavaScript/TypeScript

React.js/Next.js/Gatsby.js

React Native

Vue.js/Nuxt.js

Redux/Thunk/Saga

Restful API/GraphQL

Prismic

Storybook

MUI/Core UI/Tailwind CSS/

Bootstrap

Node.js/Express.js/Strapi

PHP/Laravel

Web3.js/Ethers.js

Solidity

Git/Github/Gitlab

Agile Methodologies/Jira

Jest/Selenium/Jasmine

MySQL/PostgreSQL/MongoDB

CAREER OBJECTIVE

Senior Full Stack Engineer with a proven ability to collaborate effectively with other engineers. Enjoy working closely with team members to ensure workloads are effectively redirected to bottlenecks and personally picking up the slack when necessary. With a passion for both personal growth and for software development. I attended a 1000+hour coding boot camp to learn new languages while sharpening existing skills. Ready to apply my passion for coding to a talented engineering team to develop quality solutions

WORK EXPERIENCE

Sr. Front End Developer

Kyros

April 2022 - Dec 2023 / Remote

- Built website front end code base and created over 100 reusable components using React and Redux
- Built Admin Panel based on React Core UI and interact with over 200 API
- Implemented business logic regarding the user role and delivered 100% responsive design
- Implemented Unit Testing using Jest and improved website performance
- Created a web app MVP for a educational management platform with 500+ business customers to create, manage, and monitor deliveries using React and Redux
- Tools & Technologies: React, Redux, Bootstrap, Sass, Axios, Storybook, Firebase, S3 bucket, Lambda, Jest

Sr. Front End Lead Developer

Bit Depot

Sep 2020 - April 2022 / New York, NY

- Built website front end from scratch with a well-structured code base, focused on creating reusable components and improving website performance
- Peer review of solutions to ensure maximum benefit to the organization without compromising system integrity
- Designed and implemented web applications along with 3rd-party software integration as a web team liaison for all inter-departmental and customer-facing projects.
- Mentored 3 junior front end developers on the team and documentation best practices within the organization

AWS(S3, Lamda, Amplify,
DynamoDB)

- Implemented Unit Testing using Jest & Selenium
- Tools & Technologies: React, Next.js, Styled Component , Storybook, GraphQL, S3 Bucket, Google Maps, Node.js, Strapi, Smart Contract

Full Stack Developer

Chobani

April 2017 - Oct 2019

- Built Chobani application using react/redux and built pixel/perfect UI/UX with JavaScript, HTML5 and CSS3 while ensuring cross-browser compatibility across 5+ major providers based on Figma design
- Built, test, and recommend software improvements relevant to 10+ React component libraries to ensure strong functionality and optimization
- Added test cases to show visual tests using storybook
- Implemented back-end REST full endpoints using node/express
- Tools & Technologies: React.js, MUI, Node.js, Git, CMS

Front End Developer

Beanhunter

Jul 2016 - Mar 2017

- Participated in the initial wave of developers learning and implementing the React.js
- Designed and implemented web applications along with 3rd-party software integrations as a web team liaison for all inter-departmental and customer-facing projects.
- Tools & Technologies: React, Webpack, Rest API, Firebase, Cloud Service
